

ADDENDUM NO. 2

July 16, 2018

REQUEST FOR QUALIFICATIONS (RFQ-2018-15) FOR DEVELOPMENT TEAMS

The following clarifications, amendments, additions and/or deletions are hereby made a part of the RFQ for **“Development Teams”**. This Addendum addresses DHA responses to vendor’s questions regarding the aforementioned RFQ and DHA’s response to same.

DHA’s RESPONSE TO QUESTIONS:

Question #1: There was an article in the Dallas News that referenced properties in the Dallas area in need of redevelopment. Dallas’ public housing agency has an offer it hopes real estate developers can’t ignore. Will these properties be included in the RFQ that is currently released or is there a separate RFQ? I appreciate your assistance and clarification.

Response: Developers interested in any of these sites should submit their qualifications statement under the current RFQ.

Question #2: Our company is interested in receiving more information regarding the Uptown, Oak Lawn and Oak Cliff redevelopment. Who would be the best person to contact for this exciting endeavor? We’re looking forward to gaining more insight in the near future.

Response: DHA currently has a Request for Qualifications for Development Teams (“RFQ”) open for development partners who are interested in working with DHA. If you are interested in partnering with DHA to develop one of its properties or a privately held property, please submit a qualifications statement under this RFQ. The RFQ may be obtained from DHA’s website at www.dhantx.com.

Question #3: I am currently going through the site selection process for the most recent DHA RFQ and I had a question regarding the jurisdiction of the DHA for potential sites. Is there a map to show this? Or is it just the City of Dallas and the ETJ?

Response: DHA is interested in partnering with developers who want to develop properties to meet DHA’s mission to provide affordable housing throughout its seven county jurisdiction as provided by the Court in the

Walker et al. housing desegregation lawsuit. These include Dallas, Collin, Denton, Rockwall, Ellis, Kaufman, Tarrant Counties.
